**Independent Living Canada - 40th Anniversary
Annual General Meeting and Conference**

***“40 years and onward -
Shaping the Future of Independent Living”***

For four decades, our national network has advanced the Independent Living movement across Canada: championing accessibility, leadership, and the voices of persons with disabilities. This gathering will be an opportunity to reflect on that shared history, strengthen connections across our Member Centres, and look ahead to the future of our movement.

We look forward to coming together in community, collaboration, and purpose.

More details will be shared in the coming months.
